TECHNICAL SKILLS

Languages: TypeScript, JavaScript, C++, C, Python, Rust

FullStack Framework: Next.js, Nest.js, Express.js, Atoms, Tanstack, MongoDB, Framer-motion, Shadcn, Tailwind CSS, Material UI, Mantine, Prisma ORM, Web3.js, SQL, Mastra-Ai agent Builder

Dev Tools: GitHub, Bitbucket, Docker, Postman, Vercel, Netlify, Render, AppWrite, FusionAuth

EXPERIENCE

Metaverse Ventures (M0), : Full-Stack Developer

May 2025 – Present

- Owned end-to-end development of two core products: **Meta-Create** (AI media generation platform) and **GenWorld** (3D model and game generation platform).
- Architected and built Web3 authentication and payment flows using Phantom and MetaMask, enabling secure wallet-based user access and token transactions.
- Integrated Solana and Ethereum wallet adapters with message-signing for secure multi-chain transaction tracking.
- Led frontend architecture using Next.js, Shadcn UI, Tailwind CSS, Framer Motion, and TanStack, delivering a modular and highly responsive user experience.
- Built backend APIs using Nest.js, FastAPI, Prisma, and Redis for caching, job queues, and real-time data handling across AI and Web3 workflows.
- Integrated 45+ AI models for image, video, and audio generation with NFT minting of generated assets and token-based trading.
- Designed prompt-to-3D model and prompt-to-game generation workflows for the GenWorld platform.
- Led system architecture, technical planning, and major implementation decisions across both products.

GradHub, : Next.js Frontend Developer

Feb – April 2025

- Revamped the entire architecture and UI of GradHub's official website to improve performance and user experience.
- Implemented a scalable design system using Mantine and Storybook for reusable UI components and future testing workflows.
- Created a library of modular, reusable components to reduce code redundancy and improve development efficiency.
- **Tech Used:** Redux Toolkit, Next.js, TypeScript, Mantine, npm packages, StoryBook

ResoluteAi Software, : Frontend Developer

May – August 2024

- Built reusable UI components using the Material-UI library to ensure design consistency and faster development.
- Implemented and structured a scalable Redux store for state management, including custom hooks for handling API calls, error responses, and session data retrieval.
- Integrated lazy loading and debouncing techniques to enhance performance, especially in search functionalities and external libraries used for rendering charts and graphs.
- **Tech Used:** Redux Toolkit, React.js, TypeScript, Material-UI, npm packages

Blockchain Research Lab, : Senior Coordinator & Front-End Developer

August 2022 – May 2024

- **Key Responsibility:** Collaborating with a team of 45 members with day-to-day responsibilities that include conducting technical activities and maintaining various college projects (BRL official website, Visitor Entry Portal, Test portal, Registration Portal)
- **Events, Hackathon, Sessions:** Led multiple technical events on campus, each attracting 350+ students

PROJECTS

BRL Website (brlakgec.com)

(GitHub)

Migrated the BRL official website from Angular to React, resulting in a 40% faster page load time and 25% increase in user engagement metrics, leading to a 15% boost in conversion rates

- Enhanced website aesthetics and functionality through strategic implementation of specific npm packages; personally verified integration led to a 40% reduction in reported visual bugs during initial user testing phases

CryptHunt BlackBox

(GitHub)

Developed and deployed a live quiz application capable of accommodating **30+** concurrent teams providing real-time interaction and engagement

- Orchestrated the enhancement of the leaderboard, homepage, and blackbox sections, driving a 50% surge in user engagement and a 30% uptick in retention rates. Engineered quiz question APIs to elevate user experience and interactivity, resulting in a 35% spike in daily active users and a 25% improvement in customer satisfaction scores.

EDUCATION

B.Tech in Computer Science and Engineering

Ajay Kumar Garg Engineering College, Ghaziabad

ACHIEVEMENTS

- Achieved Global Rank 3241 in TCS Codevita
- Achieved 5th Rank in CodingNinja Batch
- Ranked 15th among 250+ students in an intercollege coding contest
